Innovating for Better Health Care

From Director's Desk ...

Dear Partners
Greetings from McW Healthcare!

World Health Organization (WHO) defines health as “a complete state of physical, mental and social well-being, and not merely the absence of disease or infirmity.”

We at McW Healthcare value human health and have been a responsible partner in the pursuit of ethical ways to deliver these with our innovative products.

Innovation is adding values – We have given to the world many innovative products in various therapeutic segments and have been appreciated by the medical fraternity for the same.

Some of these innovations have resulted in many “first time in India” and few of them have been “patented”. This is a result of the ongoing Research and Development efforts at our laboratories. You can expect many more from us in the future.

To vindicate the meaning of “Generic” we are committed to provide International Quality Healthcare and Pharmaceutical products at affordable price.

We shall always endeavor to remain true to our values and pursue our passion for “Innovating for better healthcare”.

Let McW Healthcare be a part of your trade world.

Together we can make your patients' life more comfortable.

With warm regards

Sharan Simon
(Director)
